

# ICANM 2020

June 23-25, 2020 | Perth, Australia  
[www.icanm.net](http://www.icanm.net)

## ABOUT CONFERENCE

**2020 International Conference on Advanced Nanomaterials** (ICANM 2020) aims at sharing new ideas and new technologies amongst the professionals, industrialists and students from research areas of advanced nanomaterials to share their recent innovations and applications and indulge in interactive discussions and technical sessions at the event.

ICANM 2020 is sponsored by Edith Cowan University (ECU) which is an Australian public university located in Perth, Western Australia. ECU was granted university status in 1991 and was formed from an amalgamation of teachers' colleges with a history dating back to 1902 when the Claremont Teachers College was established, making ECU the modern descendant of the first institution of higher education in Western Australia.

## PUBLICATION

All accepted and registered papers will be published in International Conference Proceeding, which is indexed by **Ei Compendex, Scopus.**

## KEY DATES

Submission Deadline:	February 10, 2020
Acceptance Notification:	March 1, 2020
Registration Due:	March 20, 2020
Conference Dates:	June 23-24, 2020
Technical Visit:	June 25, 2020

## CONFERENCE VENUE

Edith Cowan University  
Address: 270 Joondalup Dr, Joondalup WA 6027, Australia  
Website: [www.ecu.edu.au](http://www.ecu.edu.au)

## CONTACT US

Ms. Jessica Ou  
Email: [icanm@cbees.net](mailto:icanm@cbees.net)  
Tel: 86-28-8757778

## SUBMISSION

Please send your abstract or full paper as an attachment to [icanm@cbees.net](mailto:icanm@cbees.net)  
Or you can directly submit your paper through Electronic Submission System:  
<http://confsys.iconf.org/submission/icanm2020>

## TOPICS

- Doped Nanomaterials
- Nanostructured Ceramic
- Modification of Nanomaterials
- Nanomaterials Applications
- Nanomaterials Characterization
- Nanomaterials Handling Techniques
- Nanomaterials Storing Techniques
- Polymer Nanomaterials
- Sustainable Nano-manufacturing
- Synthesis of Nanomaterials
- Thin Films
- Different Methods for Growth of Nanostructures
- Nanostructured Thin Films and Coatings
- Characterisation of Nanomaterials
- Organic, Inorganic, and Biomedical of Nanomaterials
